## Frequently Asked Questions

### **Q. Do I need to pay for this service?**

A. No, using your mobile browser, you can access Flipster and read magazines from your mobile device with an internet connection or 3G/4G connection.

### **Q. Can I search within a magazine?**

A. Yes, both the desktop and mobile versions of Flipster support keyword searching within a magazine. You can also search across all issues accessing the content gallery feature. There is no search feature on the mobile app.

### **Q. Can I print from a magazine?**

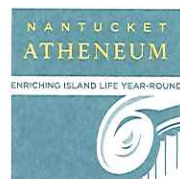

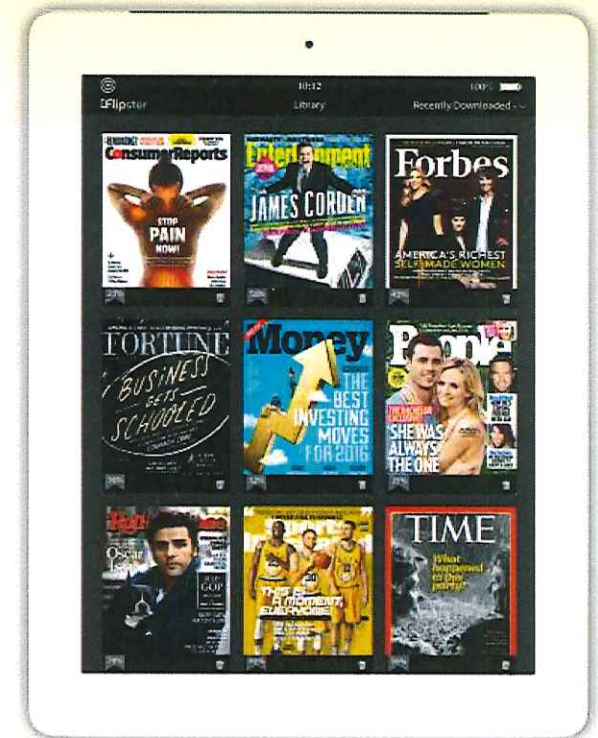

A. Yes, printing is available when reading a magazine on a computer, but not from a mobile device or the iOS or Android apps. The print button is located towards the bottom of the right hand menu when viewing a magazine on a computer. The available print options are determined by the publisher. You may be able to print a single page, a range, or none at all.

### **Q. What is the Contents Gallery?**

A. The Contents Gallery allows you to view the table of contents for all available issues of a magazine when using Flipster on your desktop or laptop computer.
