

## Movies

## Music

## Audiobooks

## Television

### How many titles may I check out?

You may check out 10 titles in a calendar month. Although you may return titles early, doing so will not allow you to stream more than 10 titles per month. One check out consists of any of these items:

A movie, a television episode, a music album, or an audio book

### How long is the borrowing period?

The borrowing period depends on what you've borrowed.

- Movies and TV episodes - 3 days
- A music album - 7 days
- Ebooks, Audio Books, Comics- 21 days

Items will check back in automatically at the end of the borrowing period, so you'll never have overdue Hoopla items.

### Do I need to be connected to the internet to watch or listen to my checked out titles?

Generally speaking, yes. Most content is streamed live over an internet connection. Be aware of this if you are streaming over a 3G/4G mobile data connection.

Some titles may be downloaded for offline viewing. Availability of this feature is based on studio or publisher restrictions. Titles may only be downloaded on iOS or Android devices using the Hoopla app.

### Will I have to wait in a hold queue for popular titles?

No. All titles are available all the time so you will not be required to wait until someone else finished a title before you can check it out.
